Construction Permit Expiration Date Extension Requests

Dear Ms. Barnum:

The Division received your letter dated June 11, 2015, requesting to extend the expiration dates of 59 construction permits for installation of emergency engines at cellular tower sites on June 17, 2015. You indicated that these construction permits are due to expire on dates spanning late 2015 into early 2016, and that the proposed construction schedule for the permitted units has been delayed until 2016 to early 2017. The Division hereby grants the request to extend the expiration date of each of the following construction permits in order to afford sufficient time to complete the installation of these units:
